Dear user

This is a letter demonstrating the L^AT_EX class `uioletter` that can be used to write official letters from employees at the University of Oslo. On the web page <http://www.mn.uio.no/ifi/tjenester/it/hjelp/latex/> there is a link to the documentation for this document class (and various other useful L^AT_EX classes, packages and documentation). In 2012 the university introduced a new graphical profile. This includes official letters and `uioletter` implements this new standard. Further information about the new graphical profile is found on the web page <https://www.uio.no/om/designmanual/>.

Yours sincerely,

Dag Langmyhr
Lecturer

An Employee
A Countersigning Person

An Executive Officer
